

Dear Members,

There is something really awkward, border line painful about having to shut the doors of any business. It has been 10 days since we were forced to close the doors of our great Club and temporarily stopped saying hello to our many loyal Members and guests.

The mandatory shutdown has placed considerable pressure on our business and our people. We have come to understand & appreciate the tough decisions our Prime Minister and all those who currently lead the charge to stop C-19 from further impacting our way of living have to make, and we stand by them.

At the end of the day... ***We are all in this together!!!***

Since the 23rd of March, we have been busy ensuring the old Club house is in good shape for an extended closure. This included deep cleaning of all our kitchens, bars, restaurants and the gyms. Transferring stock to freezers to safeguard as much as we can. We even had to empty the pools to minimise maintenance and heating costs and to stop the cooling towers from running unnecessarily.

Throughout this time our staff have been fabulous in completing the hundred and one actions required for a shutdown, while they themselves, like the rest of the country, face an uncertain future. One thing is certain, your Board of Directors are diligently guiding the Club through this constantly changing landscape. Leveraging video conferencing technology, the Board and the Leadership Team have been meeting several times a week, to ensure the Club comes out of this national emergency, stronger and better than when it entered it.

We would like you to know that whilst C-19 has stopped many things, it will not stop us from connecting with our Members and moving forward with key activities in our City Tatts calendar such as:

- The election of the Directors will proceed as planned, with nominations closing at 5pm on the 7th of April. “New Directors Information Packs” can be found on the City Tatts website.
- The City Tatts AGM will proceed on the 26th of May as planned. Albeit using technology. The Board has directed Management to investigate recommendations sent out by ClubsNSW and ASIC that will enable Members to connect to the AGM and receive the usual summary of accounts and future planning the Members are rightfully entitled to. Staying connected via technology has been one of the biggest recommendations issued by our Government and we look forward to having as many members join our AGM and connect with us again.
- We also want Members to know, that our CEO and our Finance Manager are doing all they can for the Club to be part of the many Government concessions and programs now available, such as the “Job Keeper” initiative, to help our staff access funds. We are also looking to assist our tenants with requested rent relief as they too have been hit hard by C-19.

As this information clarifies, we will keep Members informed. In the meantime, rest assured that your Board and management will continue to make decisions in the best interests of our Club.

On a lighter note and while we wait this virus out, the Club is planning on communicating with you on a regular basis and will be posting regular videos that will have you up and exercising with our gym instructors, in the kitchen cooking up a storm with our staff and making cocktails so you can have your own happy hour at home.
